

Bebbingtons

MASONRY COLOUR CORRECTION | SINCE 1968

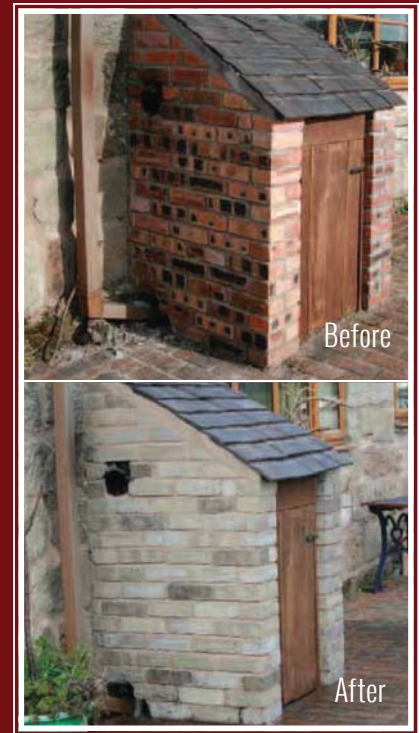

ANY CLAY, STONE OR CONCRETE PRODUCT CAN HAVE ITS COLOUR CHANGED, PERMANENTLY.

Over 40 Years of Masonry Colour Correction

a no nonsense remedial solution to the brick industry and our customers

Bebbington Brick Services is a '3rd Generation' family business, with the MD Mark Bebbington, retaining the underlying principals of his Father of, 'offering a no nonsense remedial solution to the brick industry and our customers'

From a single brick to a tower block

Technical Specification

Colourfast inorganic metallic oxides are blended with either a potassium silicate or a vinyl acetate to form a brush applied solution tailored to site specific colour and reflectivity requirements. Our experienced operatives can create virtually any colour and depth of sheen.

Remedial Technicians Guarantee

Our Remedial Technicians have over 100 years of experience between them. Ensuring that you will get the very finest finish to our work. We will guarantee our tinting work for 40 years and never ask for payment until the customer is 100% satisfied with the colour match and finish.
